## MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council  
From: Seth Lloyd  
Subject: PUDC-26-53 / Stansberry Farms – Zoning Map Amendment  
Date: April 13, 2026

---

### **Background:**

The item for consideration is a Zoning Map Amendment (zone change). This is approved by Ordinance.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral April 13, 2026
- Public Services Committee April 20, 2026
- Second reading April 27, 2026
- Public Services Committee May 4, 2026
- Third and final reading May 4, 2026

### **Planning Commission Recommendation:**

The Planning Commission heard this item at their April 6, 2026, meeting and recommended the Governing Body deny this application due to the Future Land Use Map Amendment not being approved. Please see the Future Land Use Map Amendment memo for the Planning Commission discussion on the associated Future Land Use Map Amendment.

The Planning Commission Staff report is attached and unchanged.

### **Public Comment**

Between the publication of the Planning Commission Staff Report and the publication of this memo (April 8, 2026), Staff has received no new inquiries or comments from the public on this project. The project page on the website has received 56 views and no comments.

### **Attachments:**

**ORDINANCE NO. \_\_\_\_\_**

**ENTITLED: “AN ORDINANCE AMENDING THE OFFICIAL ZONING MAP OF THE CITY OF CHEYENNE, CHANGING THE ZONING CLASSIFICATION FOR LAND LOCATED SOUTH OF I-80, EAST OF SOUTHWEST DRIVE FROM COUNTY LI LIGHT INDUSTRIAL, AG AGRICULTURAL, AND AR AGRICULTURAL RESIDENTIAL TO LI LIGHT INDUSTRIAL.”**

**BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING:**

Section 1. That the owner of real property located south of I-80, east of Southwest Drive has applied for a zoning map amendment for said property in accordance with Section 2.2.1, Zoning Map Amendment, of the Cheyenne Unified Development Code (“UDC”).

Section 2. That on April 6, 2026, the City of Cheyenne Planning Commission conducted a public hearing and reviewed the proposed zoning map amendment that is the subject of this ordinance.

Section 3. That the Governing Body of the City of Cheyenne finds that the zoning map amendment that is the subject of this ordinance meets the criteria specified in Section 2.2.1.d of the UDC.

Section 4. That, in accordance with Section 2.2.1, Zoning Map Amendment, Section 5.1.2, Zoning Districts Established, and Section 5.1.3, Official Zoning Map, of the UDC, the aforementioned zoning map amendment application is hereby approved and the zoning classification of the real property described as Tract 1, H and B Tracts, and Lot 2, Block 1, H and B Tracts, 2<sup>nd</sup> Filing, Cheyenne, Wyoming, is hereby changed to LI Light Industrial.

Section 5. That the City Engineer is hereby authorized and directed to alter and amend the Official Zoning Map as described in Section 5.1.3 of the UDC to comply with the zoning map amendment as described in Section 4 above when this ordinance takes effect in accordance with Section 7 below.

Section 6. Sections, paragraphs, sentences, clauses and phrases of this ordinance are severable. If any section, paragraph, sentence, clause, or phrase of this ordinance is declared unconstitutional, such unconstitutionality shall not affect any of the remaining sections, paragraphs, sentences, clauses, and phrases.

Section 7. That this ordinance shall be in full force and effect upon its approval and publication.

| <b>ZONING:</b>          | County LI Light Industrial, AG Agricultural, and AR Agricultural Residential                                                                                 |
| <b>FUTURE LAND USE:</b> | Proposed Mixed-use Employment<br>(Current – Mixed-use Residential)                                                                                           |
| <b>PURPOSE:</b>         | To zone land LI for unspecified future mixed-use employment                                                                                                  |
| <b>PREPARED BY:</b>     | Seth Lloyd, AICP, Senior Planner                                                                                                                             |

**RECOMMENDED MOTION:**

---

Should the associated Future Land Use Map Amendment be recommended for approval:

Move to recommend the governing body **approve** the rezoning of Tract 1, H and B Tracts and Lot 2, Block 1, H and B Tracts, 2<sup>nd</sup> Filing to LI Light Industrial as shown in the attached zone change map, noting that the project meets the review criteria for approval.

Should the associated Future Land Use Map Amendment be recommended for denial:

Move to recommend the governing body **deny** the rezoning of Tract 1, H and B Tracts and Lot 2, Block 1, H and B Tracts, 2<sup>nd</sup> Filing to LI Light Industrial as shown in the attached zone change map, noting that the project does not meet review criteria 1, 2, and 8 – the LI zoning request being incompatible with the future land use designation of Mixed-use Residential.

**APPLICABLE CITY CODE SECTION(S) AND PLANS:**

---

- UDC 2.2.1 Zoning Map Amendment
- UDC Article 5
- PlanCheyenne

**BACKGROUND:**

---

This zone change application proposes changing the zoning from County LI Light Industrial, AG Agricultural, and AR Agricultural Residential to LI Light Industrial for roughly 90 acres of land. The land is currently occupied by a tree nursery, rural residential development, and vacant land. Outside of this application, discussion has occurred regarding development of a campground or recreational vehicle park; however, those intentions have not been formally stated. Campground and Recreational Vehicle Park land uses can be accommodated via conditional use process in the existing zone districts.

The application has been submitted concurrently with a proposed future land use map amendment to change the subject property to Mixed-use Employment. Staff's discussion and recommendation on the proposed future land use map amendment are found in that application's staff report.

The northernmost portion of land was annexed in 2015 and proposed to be platted as "Heiduck Addition". The proposed zoning with the annexation and the plat was City LI Light Industrial. The underlying County zone was County LI and the City LI zone would be analogous to the County zone. There were some issues with the project that required corrective ordinances months later, and the plat never ended up getting recorded. Unfortunately, the Ordinance for the City zone was tied to the recording of the *plat*, not the recording of the *annexation*. The property still technically has not been given a City zone. However, as the original intent of the Council at time of annexation was LI zoning, and as representation on the zoning map for the City and County LI zones are identical, this property has been treated as zoned LI by previous staff. This zone change includes LI zoning for the northernmost parcel to clean-up the past issue. Should this zoning request zoning fail, staff will run a corrective ordinance for the northern area currently County LI.

**SURROUNDING LAND USE AND ZONING:**

|                     | <b>Future Land Use Designation</b>                                   | <b>Zoning District</b>                                                   | <b>Land Use</b>                    |
|---------------------|----------------------------------------------------------------------|--------------------------------------------------------------------------|------------------------------------|
| <b>Subject Site</b> | Mixed-use Residential                                                | County LI Light Industrial, AG Agricultural, AR Agricultural Residential | Vacant, Rural Residential, Nursery |
| <b>North</b>        | Open Space and Parks, Mixed-use Commercial                           | LI, P Public                                                             | I-80, Industrial, County Park      |
| <b>South</b>        | Mixed-use Residential                                                | County LU Land Use, MUB Mixed-Use Business                               | Single-family residential, Vacant  |
| <b>East</b>         | Mixed-use Employment                                                 | LI                                                                       | Vacant                             |
| <b>West</b>         | Mixed-use Residential, Open Space and Parks, Public and Quasi-public | LI and PUD Planned Unit Development                                      | Vacant and Animal Shelter          |

**ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:**

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

**1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.2.1.d.1)**

The property is currently designated Mixed-use Residential by the Comprehensive Plan, but a comprehensive plan amendment has been submitted to change the designation to Mixed-use Employment.

The current designation (Mixed-use Residential) has an optimal zone of MUR Mixed-use Residential, though a variety of residential zones and the NB zone may also be appropriate. The designation is intended for a mix of residential development with a mix of retail, offices, and light trade. Optimally, areas so designated would be less than one-third non-residential uses. The LI zone allows for no residential uses – encouraging instead warehousing, manufacturing, retail, and office uses. Some service uses (such as campgrounds or entertainment uses) are also permitted. The LI zone is largely incompatible with this future land use designation.

The proposed designation (Mixed-use Employment) has an optimal zone of MUE Mixed-use Employment, though the BP, CB, and LI zones may also be appropriate depending on the context. The MUE designation encourages primarily office and light industry uses, with retail and service uses as secondary uses. Although not optimal, the LI zone would appropriate for this designation.

Support for this application in policies in PlanCheyenne also hinge on the future land use map amendment proposal. For example, policies within PlanCheyenne encourage a mix of uses in the Cheyenne region using the future land use map as a guide (1.1.A), the flexibility to respond to market demands (1.1.B), meeting community housing needs (2.5.A), dispersing housing

throughout the community (2.5.B), a business-supportive environment (3.1.C), and providing opportunities for a range of industrial uses (3.5.A).

The proposed zone change for the subject property **does not comply** with review criterion 1 under the current future land use map designation but would **comply** if the concurrent application for future land use map designation change is approved.

**2) The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas; (UDC 2.2.1.d.2)**

Nearby property is zoned LI to the north, east and partly to the west. A PUD exists to the west as well, and LU and MUB zoning exist to the south.

The PUD is the Overland Trails PUD which has designated this area of the PUD I Industrial. The Overland Trails PUD was originally adopted in 1984, and much of the PUD has been superseded by subsequent rezoning and new development plans.

LI zoning is largely compatible with the current surrounding zoning.

Nearby Future Land Use designations include Mixed-use Commercial to the northwest, Open Space and Parks to the north and west, Public and Quasi-public to the west, Mixed-use Employment to the east, and Mixed-use residential to the south and southwest. Based on the land use designations and existing zoning in the area, it would appear the comprehensive plan is expecting land west of the BNSF railroad to transition into housing and commercial development. The only designation which allows for industrial zoning and uses is across the barrier of the BNSF railroad. Based on the future land use plans for the area, LI zoning would not be compatible with surrounding properties.

There is a request to change the future land use designation of the subject property from Mixed-use Residential to Mixed-use Employment. Should this request be approved, the change would suggest that it would be acceptable to have light industrial uses 'spill over' from the east and the request would be compatible with the future land use designations in the area.

The proposed zone change for the subject property **does not comply** with review criterion 2 under the current future land use map designation but would comply if the concurrent application for future land use map designation changes is approved.

**3) The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (UDC 2.2.1.d.3)**

The property is currently zoned County LI Light Industrial, AG Agricultural, and AR Agricultural Rural.

The County zoning should be updated to a City zone prior to development.

The City AG zone is intended for agricultural and rural uses or as a holding zone for future development. The area currently zoned AG is inside the urban service boundary and has no natural features that would warrant limited development (such as a floodplain) – eventually this area would be anticipated to be changed to a more urban zone and develop with more urban uses. The proposed LI zone would allow for such development.

The City AR zone is intended for rural residential uses and is one of the more restrictive zones in the City. The area zoned AR is within the urban service boundary and has no natural features that would warrant limited development (such as a floodplain). Almost any other City zone would allow for more urban and diverse development, including the proposed LI zone.

The proposed LI zone has limited design standards and there are no site-specific issues that would limit the ability for the site to develop within applicable design standards.

The proposed zone change **complies** with review criterion 3.

**4) The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (UDC 2.2.1.d.4)**

Future development in the area will be highly constrained by I-80 and the BNSF railroad. Regionally, connectivity is also limited by I-25, College Drive, and the UP railroad. These barriers make developing to Article 4 standards for lots and blocks difficult for any development in any zone district. LI zoning generally has less expectations for an interconnected street network at the local-street level.

A Major Collector Street is identified on the Transportation Master Plan immediately south of the area proposed for change. This street is an Extension of Allison Road between Southwest Drive and Parsley Boulevard. Right-of-way dedication and improvements will be required in conjunction with future development actions such as platting.

No changes to the street network are proposed. Accesses will not be changed with the zone change. Infrastructure (streets and utilities) exist in the area.

The proposed zone change for the subject property **complies** with review criterion 4.

**5) The ability of the application to support the Intent and Applicability statements of the proposed zoning district and achieve the Design Objectives of any specific standards. (UDC 2.2.1.d.5)**

The UDC indicates that the LI district is intended for environmentally-controlled manufacturing or intensive employment uses that may have accessory commercial, service or office uses. The LI district is applicable to larger land areas that are capable of providing substantial buffers to adjacent sites. This district is most appropriate in areas with access to major regional transportation infrastructure, specifically areas designated Industrial in the Comprehensive Plan, and in limited applications within Mixed-use Employment areas.

The subject property is a larger area capable of providing buffers and adjacent to an interstate and a railroad – with ready access to a second interstate. The site largely meets the intent and applicability as outlined in the UDC, with the exception that the LI zone is not compatible with Mixed-use Residential designated areas in the comprehensive plan. If the area is changed to be designated 'Mixed Use Employment', the LI zoning is fully compatible.

The proposed zone change for the subject property largely **complies** with review criterion 5 under the current future land use map designation but would **comply** if the concurrent application for future land use map designation change is approved.

**6) The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options if any specific development proposed in association with the application is not executed after approval. (UDC 2.2.1.d.6)**

No specific development of the site has been noted with the formal rezoning application; however, unofficially it has been discussed that the applicant wishes to construct a campground or recreational vehicles park. These uses can be approved via conditional use approval in the AG and AR zones, but are permitted uses in the LI zone (and the LI zone is the only zone where these uses are permitted without conditional use review).

Should the campground or recreational vehicle park use not come to fruition, the LI zone allows for a variety of limited industrial, office, and retail uses, and the site's location and size would be versatile enough to allow a wide range of potential uses.

The proposed zone change **complies** with review criterion 6.

**7) The review and recommendations of other reviewing bodies. (UDC 2.2.1.d.7)**

No major comments were received in regard to the proposed zone change that have not been covered under other review criteria.

The proposed zone change for the subject property **complies** with review criterion 7.

**8) Whether the application will harm the public health, safety, or general welfare. (UDC 2.2.1.d.8)**

Cheyenne has had documented housing challenges and taking land anticipated for residential (or mostly residential) development and zoning that land industrial would adversely affect the general welfare of the community. However, if the future land use designation changes and the land is no longer anticipated for residential development, City staff is satisfied that this proposed zone change would not adversely affect the public health, safety, or general welfare.

The proposed zone change for the subject property **does not comply** with review criterion 8 under the current future land use map designation but would **comply** if the concurrent application for future land use map designation change is approved.

**CONFORMANCE WITH APPLICABLE PLANS:**

---

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

**PUBLIC NOTICE AND PUBLIC COMMENTS RECEIVED:**

---

Although projects have public notice and the opportunity for public comments, projects are required to be approved or denied based on the review criteria (listed above). Public comments relevant to the review criteria may assist the review and discussion on the application.

The public was given notice of the project in the following ways:

- **Legal Notice** in the Wyoming Tribune Eagle published on March 21, 2026.
- **Mailed Notice** Evidence of mailed notice was provided showing that the letters were mailed on March 18, 2026.
- **Posted Notice** Evidence of posted notice was provided showing that the signs were posted on March 30, 2026.
- **Internet Posting** on connect.cheyennecity.org on March 16, 2026.

As of the publication of the Staff Report (March 30, 2026), Staff has received one inquiries or comment from the public on this project. The one member of the public called the office and had concerns about the traffic impacts of new development. The project page on the website has received 15 views and no comments.

**STAFF REVIEW:**

---

Through the review process, review comments were received expressing concerns about the appropriateness of the LI zone at this location. Staff comments also discussed the ability of a possible proposed use (campground or RV park) to be developed in the current zones (via conditional use). Staff also mentioned drainage and traffic concerns that may become necessary to address with the site plan.

**CONCLUSION:**

---

The application has been submitted concurrently with a proposed future land use map amendment to change the subject property to Mixed-use Employment. Staff's conclusion on the proposal to zone land LI Light Industrial hinges on the appropriateness of the associated future land use map amendment proposal.

Should the future land use map amendment be approved, the extension of 'mixed-use employment'-style development across the BNSF railroad would be considered appropriate and the application would meet all review criteria.

On the other hand, if the future land use map amendment is denied, this request would fail to meet review criteria 1, 2, and 8, and meeting review criterion 5 would be less clear-cut.

Staff's discussion and recommendation on the proposed future land use map amendment are found in that application's staff report.

**ALTERNATIVES:**

---

1. Recommend approval of the zoning amendment as submitted by the applicant (**Staff Recommendation** [with future land use map amendment approval]).
2. Recommend approval of the zoning amendment subject to conditions or modifications.
3. Recommend denial of the zoning amendment based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated. (**Staff Recommendation** [without future land use map amendment approval])
4. Postpone the zoning amendment until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

If the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

**STAFF RECOMMENDATION:**

---

Should the future land use map amendment be approved, staff recommends approval of the rezoning of the property from County LI, AG, and AR to LI.

Should the future land use map amendment fail, staff recommends denial of the rezoning of the property from County LI, AG, and AR to LI.

C. Cheyenne, WY

March 30, 2026

Record No: PUDC-26-53

Zoning Map Amendment

Status: Active

Submitted On: 3/11/2026

Primary Location

521 SOUTHWEST DR  
Cheyenne, WY 82007

Owner

TRU GRIT LAND DEVELOPMENT LLC AND STANSBERRY  
FARMS, LLC  
WALTERSCHEID BLVD 140 CHEYENNE, WY 82007

Application

This application has a deadline. The deadline is the second Wednesday of the month. Application Schedule.

Project Name\* ?

STANSBERRY FARMS

Proposed Zoning\* ?

LI Light Industrial

Project Description or notes ?

THIS ZONING IS ADJACENT AND SIMILAR TO THE NEED USE.

Review Criteria

The following review criteria are found in the UDC regarding a zoning map amendment. Please acknowledge the proposed zoning map amendment meets each review criterion by checking the box.

The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan (2.2.1.d.1).\*

The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas (2.2.1.d.2).\*

The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (2.2.1.d.3).\*

The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (2.2.1.d.4).\*

The ability of the application to support the Intent and Applicability statements of the proposed zoning district, and achieve the Design Objectives of any specific standards (2.2.1.d.5).\*

The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options in the event that any specific development proposed in association with the application is not executed after approval (2.2.1.d.6).\*

The review and recommendations of other reviewing bodies (2.2.1.d.7). (Not applicable at time of application)

Whether the application will harm the public health, safety, or general welfare (2.2.1.d.8).\*

Certification

I hereby certify that I am the owner, applicant, or agent named herein and that I have familiarized myself with the rules and regulations with respect to the filing of this application and that the foregoing statements and answers contained on this application and accompanying documents are true and accurate to the best of my knowledge.\*
